## Tissue Sweet Pea Vines

Supplies: Tissue Paper  
Waxed Linen Twine  
Paper Twist Twine  
Scissors  
Floral Tape

### Instructions:

Cut a 3' length of Paper Twist Twine

For creating the sweet pea:

1. Take two circles about 3" wide and stagger one on top of the other slightly.
2. Gather the middle together (Mini pleat them) and tie (with a double knot) slightly off the center with Paper Twist Twine.
3. Fold the shorter end up.
4. Cut the calyx by taking a 4-5" strip of crepe in green and cutting small points on one end. Wrap around your sweet pea and paper twine.
5. Wrap floral tape to secure your calyx and sweet pea together.

Repeat at different spots on your twine. For variation create "tendrils" of the sweet pea. Before wrapping with floral tape add in curled wax twine to some of the sweet peas.

Use this as a curtain, decorate a window, hang from the ceiling or attach to gifts. There are numerous ways you can use this project! Have fun!
